NEW Aluminium
Inline Sliding Door

stellar™
ALUMINIUM SYSTEMS

With the trend for large expanses of glass that give unrestricted views to the outside or adjoining room, the Stellar Inline Sliding Door opens up endless possibilities. It has a stunningly slim aluminium profile and a slimline interlock of just 35mm so the frames sit wonderfully unobtrusively. Each sash can be up to 1675mm wide, so you can have fewer sashes and more glazed area.

- Double or triple glazed
- Wind load resistance Class B3 to 1200Pa
- Water tightness Class 5A to 200Pa
- Air permeability Class 3 to 600Pa
- U-values as low as 1.0 W/m²K
